

DOROTEO NAVARRETE

SOFTWARE DEVELOPER

ABOUT ME:

I am an enthusiastic and adaptable software developer, dedicated to deliver the best in every project. I currently work as a FullStack developer, with skills in several languages and technologies.

I am proactive, sociable and fluent in English. I am committed to personal and professional growth, always looking for new challenges that push me to improve myself.

WORK EXPERIENCE

19/07/2022 - Actually... Software Developer at Baufest S.A.

During this period I have made developments and new implementations in the projects in which I have worked, as well as I have analyzed and solved bugs as support, even at production level.

On the other hand, I also participated in the migration of a project to new technologies.

I have also been in charge of the production releases, making sure that the process is correct.

Technologies:

- SQL
- .NET (C#)
- Java
- Android (Java)
- Angular (TypeScript)
- React (TypeScript - JavaScript)
- Microsoft Azure Services
- TeamCity, Octopus & IIS
